Dispute

Bike Path

Contractor started installing rubber pads on top of bike path beam at panel point 13 lift 2 and 47 lift 6. They also move two (9-11 and 11-13) bike path segment from one location on the deck to another.

**CERTIFIED COATING
COMPANY**

I checked OBG #7 splice seam weld for 5/17/11 to 5/20/11 and notice that the blast profile was still higher than what was call on the specs which was (1.5 - 3.5) mils but field profile was (5.4 - 6.4) mils. I call for a meeting to discuss how to resolve this issue. People from Certify Coating were Mike Gaya (Foreman) Tony Kantrones(Foreman) and Bill Todd (Suprentendent), Myself and Fintan Shanley from Caltrop (QA). Contractor agreed to change the blast media next week.
